SUNY Upstate welcomes **Rebecca Kindon**, newlywed and recent Syracuse University graduate, who joined our reference staff in June. Rebecca will be providing bibliographic instruction in addition to reference services.

Eric Luft, curator of historical collections, has authored *SUNY Upstate Medical University: A Pictorial History*, to be published in September. The book tells the stories of Upstate faculty and alumni who have enriched the field of medicine, including Elizabeth Blackwell, the world's first female physician, who received her degree from a medical school in Central New York in 1849. For more information, visit <http://www.gegensatzpress.com/>.
